Statement of human and animal rights

Manuscript submitted should respect the ethical recommendations of the Helsinki declaration and the "*Recommandations uniformes pour les manuscrits soumis aux revues biomédicales*" (Standard recommendations for manuscripts submitted to biomedicals) adopted by the JMM (see *J Mycol Med* 1994;4:1-2; *Br Med J* 1991;302:338-41; *N Engl J Med* 1991;324:424-8; *Ann Dermatol Venerol* 1992;119:336-42; *Can Med Assoc J* 1991;144:1439-46; *Gastroenterol Clin Biol* 1993;17:8-14). If required, it should have been submitted to either the advisory committee for the protection of people involved in biomedical research (CCPPRB), or to an ethical committee. If an article has been submitted to one of these committees, this should be mentioned in the text.

If the studies submitted were carried out on animals, they should have been conducted in a accredited laboratory under the direction of accredited member of the staff.
